

REMARKS/ARGUMENTS

Reconsideration and allowance of the present application based on the following remarks are respectfully requested.

Upon entry of this Amendment, claims 33-39, 41-55, and 57-58 will be pending. Claim 40 has been included in claim 1 and, consequently, claim 40 has been cancelled. Furthermore, claim 48 has been written in independent form. In addition, claims 59-64 have been cancelled. Finally, several editorial revisions have been made in view of the inclusion of claim 40 into claim 1. Consequently, no new matter has been introduced, no new issues have been raised, and no additional claims have been added. Accordingly, entry of this Amendment is respectfully requested as it is believed to place the application in condition for allowance and/or better condition for Appeal.

Regarding the rejections over the article by Weder, Applicants kindly reiterate their comments in the Response dated November 20, 2003, and note that a certified copy of the European priority document is being submitted contemporaneously herewith.

Regarding the Examiner's concerns under 35 U.S.C. 102(f), Applicants kindly refer the Examiner to the enclosed inventor Declarations.

Accordingly, the only remaining rejections are those of claims 33-47, 50-53, 55, and 57-64 over Clausen *et al.*, and of claim 54 over Clausen *et al.* in view of Vriens.

Applicants note that all these claims are, either directly or indirectly, dependent on instant claim 33. In this regard, it is respectfully submitted that Clausen *et al.*, either alone or in combination with Vriens, do not disclose the displays of claim 33, which comprise, *inter alia*, at least two photoluminescent layers having unequal photoemission or absorption spectra or both. Accordingly, Clausen *et al.* and Vriens do not teach or suggest claim 33 -- much less the claims dependent thereon. For at least these reasons, withdrawal of the rejections is respectfully requested.

Therefore, all objections and rejections having been addressed, it is respectfully submitted that the present application is in a condition for allowance and a Notice to that effect is earnestly solicited.

Should any issues remain unresolved, the Examiner is encouraged to contact the undersigned attorney for Applicants at the telephone number indicated below in order to expeditiously resolve any remaining issues.

Respectfully submitted,

MAYER BROWN ROWE & MAW LLP
